

# Comfort Heat

NEW

Smart control  
at your fingertips

## Smartness is in the details

We have designed **Comfort Touch** to save your time and develop a smart and modern solution.

### Comfort Touch programme:

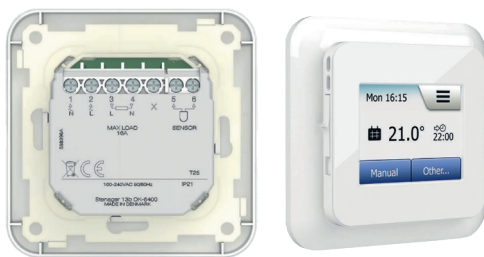

- Right-side up instructions for easy installation;
- A set-up wizard and test mode to ensure proper installation;
- Power measurement for safeguarding electrical work;
- QR code generator for easy programming;
- 3 year warranty.

## Smart design for smart homes

An easy-to-navigate **Comfort Touch** screen matches with a smart design that not only fits to your homes, but also way of living. **Comfort Touch** thermostat allows you to control your living conditions through stress-free menus and personalisation function for your comfort needs. **Comfort Touch** gives you user-friendly heating and energy control.

## Monitor home system settings

**Comfort Touch** thermostats create onscreen QR codes which give you an easy and simple way of learning more about their system performance.

### Get to know the system

QR codes give homeowners direct access to product information.

### Settings and schedule

QR codes provide a quick overview of the thermostat settings and schedule.

### Keep energy in check

Homeowners can easily access all essential data on energy and check up on their system performance and usage

### Diagnostic tool

Support documentation and copies of relevant data for installer analysis, interpretation and guidance.

**Touch screen:** easy, intuitive and animated touch menu navigation and programming in 12 languages.

**Smart device access:** a smartphone allows system monitoring through QR code scanning and online webpage.

**Programmable:** easy scheduling and adaptive control ensures comfort temperature is set at the required time.

**Always working:** 5 year battery backup of clock and calendar, so that after power interruptions, settings are in the place.
